At Kansas City Pet Project, we care for animals, and the humans who love them

Sedona, an 8-year-old Pitbull, was the heart and soul of the McWhirter family when she escaped from their backyard.

In October of 2018 the McWhirter family adopted Sedona and she became the center of their family. She spent her days going on car rides, basking in the sunlight, and getting into trouble with her 5-year-old human sibling. Each day their love for her grew.

One day, Sedona got out of her backyard. Her family searched for her and refused to give up finding their sweet girl. For over 730 days, they desperately held onto the hope that they would see her again.

This year, our intake team scanned the microchip of a dog that was brought to us, and her information matched with Sedona! After two long years of waiting and hoping, Sedona and her family were reunited. Within a day of being brought to the shelter, Sedona was back in her owners' arms, right where she belonged. There was not a dry eye in the house.

The house that **love** built.

Love FINDS A WAY

We hope you will join us on **September 30th** for a celebration honoring the 100,000 lives we have saved since we opened our doors 10 years ago. Serving homeless, injured and abused pets is our passion. And assisting their owners and animal lovers across our city, through programs like Keep 'Em Together KC, Home Away from Home, and our Lost and Found Pet Services, are paramount to our mission.

This celebration is not intended to be an annual event. We gather now, when the need is great, knowing a truly healthy community is only possible when the healthcare of its animals is met.

With your help, we know, as we've always known – that **Love Finds A Way!**
