WELCOME TO THE KANSAS CITY CAMPUS FOR ANIMAL CARE!

We want to provide you excellent service today and keep you and our team safe and healthy. Please read what we’re asking you to do today to reduce the risk of spreading COVID-19:

- Maintain a distance of at least six feet from other people. Six feet is the average length of many dog leashes.
- Wear a mask and alert staff if you have any symptoms of illness and cover your mouth if you cough.
- Wash your hands or use hand sanitizer before interacting with KCPP staff, volunteers and pets.
- Once you have read these guidelines, please tell us you have read and understand these guidelines and you will follow them while at KCCAC.
